Please read the following carefully before signing.

It is important that our patients and we have the same health objectives concerning chiropractic care. Regardless of what a disease or condition is called we do not offer to treat it. Our only practice objective is to eliminate a major interference to the expression of the body's internal wisdom and power. Our only method is a specific chiropractic adjustment to correct vertebral subluxations: which interfere with the body's wisdom and power. We believe that the greatest Doctor is the one already inside of each of our patients and we only help to maximize that inherent healing power, without using drugs or surgery. Your signature verifies that the information given in this form is complete and correct and that you accept, if eligible, chiropractic care on this basis.

4. A patient's written consent need only be obtained one time for the subsequent care given to the patient by this office.
5. The patient may provide a written request to revoke consent. This request would not apply to care given prior to when the written request was presented.
6. For your security and right to privacy, all the staff has been trained in the area of patient records privacy and a privacy official has been designated to enforce those procedures in our office. For Insurance Recipients Only

I understand and agree that health and accident insurance policies are an arrangement between the insurance carrier and myself. Furthermore, I understand Stinnett Chiropractic will file claims to my insurance carrier as a courtesy and will prepare any necessary reports and forms to assist in making collections from the insurance carrier. However, I clearly understand and agree that all services rendered to me are charged directly to me and that I am personally responsible for payment.
